Technical Skills

Language: JavaScript | CSS | HTML

Frameworks: React.js | Tailwind

Projects

1. Employee Management System

- Developed a web-based Employee Management System to streamline employee data handling and administrative tasks.
- Designed and implemented user interfaces for managing employee records, ensuring a user-friendly experience.
- Organized project files with a clear and scalable folder structure, enhancing maintainability and scalability.

Technologies-React | Tailwind CSS

2. Image-Enhanced

- Built a full-featured image enhancement web app that allows users to upload, preview, and download enhanced images through seamless API integration.
- Integrated a third-party image enhancement API with retry logic to ensure reliable and efficient processing even during network or service delays.

Technologies-React | Tailwind CSS

3. Food Delievery

- Created a responsive food delivery web app with real-time cart functionality and dynamic product listing.
- Built a clean, user-friendly UI that supports seamless browsing, item selection, and order simulation.
- Implemented interactive cart features including item addition, removal, and automatic total price calculation.
- Used modular component structure to ensure code reusability, maintainability, and efficient rendering

Technologies-React | Tailwind CSS

4.Job Portal

Education

Aggarwal College Ballabgarh

Bachelor of Computer Application (BCA)

-Pursuing

SENIOR SCHOOL (12th)

Govt Senior Secondary School

CGPA : 07.40

Passed : **2022**
